

# CHEP Joint International Workshop: Detector Development for High Energy Physics and Various Applications & 7th Luminescence Materials Workshop

## Wednesday, February 12, 2025

### Session 1 (9:30 AM - 11:00 AM)

time	[id] title	presenter
9:30 AM	[15] Recent Development of Large Area Photodetector	Dr LEE, Jik
10:00 AM	[16] Fluorozirconate compounds synthesised by a facile hydrothermal method for radiation detection application	Dr DANIEL D, Jeseoph
10:30 AM	[17] Directional Dark Matter Search using Confocal Microscopy	Mr CHO, JAEYOUNG
10:45 AM	[18] Development of CsI:TI crystals for the dark matter search with enhanced PMT	Mr PARK, Sedong
