

# CHEP Joint International Workshop: Detector Development for High Energy Physics and Various Applications & 7th Luminescence Materials Workshop

## Wednesday, February 12, 2025

### Session 2 (11:15 AM - 12:15 PM)

time	[id] title	presenter
11:15 AM	[19] Radiation hardness and scintillation properties of Tb doped Phosphate glasses	Ms ANJUM, Faizan
11:30 AM	[20] Characteristics of radiography system based on CMOS camera	Mr NGUYEN, Duc Ton
11:45 AM	[21] Study on scintillation and luminescence characteristics of Cs <sub>3</sub> Cu <sub>2</sub> I <sub>5</sub> crystal	Dr NGUYEN, Luan
12:00 PM	[22] Growing low-background NaI(Tl) using VGF method for dark matter search	Mr TRUC, Lam
